

Beach Enclave is Delighted to Announce The Club at Long Bay

The Club will be the second phase of Long Bay, revealing a new aesthetic to the Turks & Caicos

[Beach Enclave](#), a collection of private luxury resorts, in Providenciales, Turks & Caicos, is delighted to announce the second phase of Beach Enclave Long Bay which will be an extension to the sell-out five custom designed luxury villas that launched in November 2018.

Pre-construction sales commenced in December 2018, with two Beach Houses sold during this period and interest in the remaining Beach Houses and Residences. The new development, allows for individuals to get a slice of Beach Enclave life, following the complete sell-out of Long Bay, North Shore and with only two beachfront estate homes available for sale at Grace Bay.

[The Club](#) is the first project in the Turks & Caicos for acclaimed architects [Jacobsen Arquitetura](#), bringing an exciting, modern, tropical design to the archipelago, enhancing the Beach Enclave ethos of low density, clean lines softened with organic materials, and seamless indoor and outdoor spaces.

Only a few select ownership opportunities are available, with a mix of one-three bedroom Club Residences and three-bedroom Beach Houses, as well as an exclusive three-bedroom penthouse available to purchase. Four beach-facing Club Residences will debut in 2021 and boast wide-frontage and an ample mix of indoor and outdoor space for entertaining, ranging from one to three bedrooms. In addition, the four freestanding Beach Houses are expected to debut in 2020 and offer split-level accommodation with respective private parcels of land; affording purchasers the unique opportunity to own a detached, beachfront property within a managed resort.

CEO and Founder of Beach Enclave, Vasco Borges shares *“At its core, Beach Enclave is a collection of private villa resorts, with each villa providing a boutique resort experience complete with private beach area, gardens, and a fully dedicated staff. We wanted to maintain this low density, customized owner-and-guest experience. But we also wanted to take it to the next level. For The Club, we added spaces and amenities that complement the villa’s seclusion, including a signature wellness spa and gourmet indoor-outdoor dining within footsteps of each intimate retreat.”*

Bernardo Jacobsen, Co-Founder of Jacobsen Arquitetura describes the concept of design, *“With the masterful use of straight lines, neutral colors, and organic materials such as glass and local stone, each property flows naturally between cozy interior living and the beauty of the bay. Sun-filled skylights and plenty of natural light give every room a bright and airy feel without compromising privacy, while windows showcase the brilliant, white-and-turquoise setting by the sea.”*

Beach Enclave provides the privacy and seclusion of a private home within a secure, gated community, with resort amenities and services on call. A trio of luxury, low-density residential enclaves in Providenciales, Beach Enclave is redefining beachfront luxury living in the Turks and Caicos Islands. Beach Enclave residences are situated on three of the islands' most beautiful beaches, all strategically positioned to showcase breathtaking ocean views and enjoy the island's gentle trade winds. Beach Enclave North Shore, which offers 9 villas, was the first of Beach Enclave's three developments on the coveted Providenciales Island, and officially debuted in November 2016. Its second development, The Villas at Beach Enclave Long Bay, opened for rentals in November 2018 and offers an intimate enclave of five custom-designed beachfront villas, whilst Beach Enclave's third development, Beach Enclave Grace Bay, which offers 10 villas, broke ground in February 2018 and will open for rentals in early 2020.
