### Three Major Caribbean Hotel Openings to Watch

---

From one island's first U.S.-branded hotel to a unique twist on the luxury villa concept to a high-rise in a historic capital, **Travel Agent** breaks down three new **Caribbean** hotels that give your clients more diverse lodging options for 2017 and beyond.

**Beach Enclave North Shore, Turks and Caicos:** In November, Beach Enclave, a new collection of luxury villas on Providenciales, unveiled the first of its three developments. **Beach Enclave North Shore** comprises nine private villas, set on 10 beachfront acres, that offer the services and amenities of a luxury resort.

Conceived for sophisticated, barefoot beach living, Beach Enclave North Shore's ocean-view and beachfront villas each provide guests with more than 6,000 square feet of indoor and outdoor living space. The four- and five-bedroom villas additionally include infinity-edge pools, a built-in outdoor barbecue area, multiple terraces and a secluded beach area.

Amenities include a fitness center overlooking the ocean, private chef services and a concierge who can manage requests such as arranging spa treatments, grocery stocking, airport transfers and dining reservations. On the beach, guests can enjoy set-ups of loungers and umbrellas, delivery of towels and water, and the use of kayaks and snorkel equipment to explore the nearby coral reef. Clients can additionally arrange for activities such as kite surfing lessons and private boating excursions on the water, one of the best ways to discover Turks and Caicos.

Advisors looking to book Beach Enclave North Shore should reach out to **Catherine Ryan** ([catherine@beachenclave.com](mailto:catherine@beachenclave.com)), director of sales and marketing.
