Turks and Caicos' Beach Enclave Is Expanding

By the Caribbean Journal staff

The Beach Enclave villa company in Turks and Caicos is expanding this fall with a new collection on Providenciales' Long Bay.

The new Beach Enclave Long Bay will include three villa rental opportunities in a beachfront development, the company announced in a statement.

The majority of the villas will open for rentals in November, according to the company.

There are two villa designs, with more than 7,500 square feet of indoor and outdoor space, with five, six and seven-bedroom homes.

All three villas come with outdoor kitchens, infinity pools, fire pits and beach decks including outdoor showers.

The smaller villa includes a media room.

Long Bay is best known as the site of the new [Shore Club Turks and Caicos](#), one of the most luxurious hotels in the entire Caribbean.
