

Beach Enclave Long Bay in the heart of the Caribbean

Posted by [Nicole Pozza](#) / [Leave a comment](#)

One of the Turks and Caicos Islands' leading luxury villa ownership and rental companies, Beach Enclave has just announced its expansion offering Beach Enclave Long Bay new collection – three new villa rental opportunities from November this year.

Located in the heart of the Caribbean, the charming beachfront development is the perfect destination to enjoy hot weather even in the winter season.

Beach Enclave offers a new concept that combines the luxury of residences and private villa rental with resort-style experience on the beautiful island of Providenciales.

As well as the North Shore with nine villas since 2016, Long Bay Villas, featuring five new cozy properties, will repeat the success in the Turks and Caicos, whose beaches are among the Top in the world.

Tourism is the Turks and Caicos Islands' main industry, but they are an important financial center, having the world's third largest coral reef system and over 370.2 km of white sand beaches.

Beach Enclave Long Bay will offer villas with different contemporary designs, five to seven rooms, and over 7,500 square foot of indoor and outdoor space. SWA Architects and Domino Creative Interior Designers sign together this stunning project.

A trip like this is ideal for families, couples and groups of friends, who can count on a staff prepared for everything: daily housekeeping, private Chef and butler, personal training session at the Fitness Center, personal concierge, sports activities and more.

Rates start from \$4,400 based on 10 guests sharing (minimum 3-night stay). Visit this [link](#) to discover Beach Enclave!
